

System Requirements for Famos robotic[®] V9 x64

Famos robotic[®] is a 64 bit Windows[®] application for desktops and notebooks. The system requirements depend on the specific requirements in each individual case. You can test the suitability of your computer with the demo version.

Important

1. A graphics card with OpenGL 3.2 support is absolutely necessary.
2. For notebooks, a dedicated graphics card is highly recommended.
3. On-board graphics cards are supported to a limited extent! Simple projects have been successfully tested with Intel UHD-530, UHD-630, UHD-750, HD-4000, UHD-Raptorlake-S.

Minimum requirements

1. Quad-Core Prozessor 2 GHz
2. 4 GB RAM
3. Windows[®] 10 64-Bit
4. 4 GB of free space for installation
5. NVIDIA graphics card with OpenGL 3.2 support and 2 GB memory
6. Monitor 43 cm (17") with 1920 x 1080
7. One free USB-A port for USB copy protection
8. Mouse with 3 buttons and scroll wheel
9. Internet access**

Recommendation

1. Processor with eight cores 2 GHz or better
2. 32 GB RAM or more
3. Windows[®] 11 64-Bit
4. 4 GB of free space for installation
5. NVIDIA graphics card with OpenGL 4.0* support 8 GB of memory or better
6. Monitor 65 cm (25") with 2048 x 1152 pixels
7. One free USB-A port for USB copy protection
8. Mouse with 3 buttons and scroll wheel
9. Internet access**

* OpenGL 4.0 has been available since 2010.

** Internet access is required to update software, licenses, and remote support.
